COMUNICATO STAMPA

EIMA Gulf: the 2011 edition postponed

The international exhibition of agricultural machinery EIMA Gulf, organized by Unacoma Service in cooperation with the Abu Dhabi ADNEC fairground and planned for next April 18 to 20 in Abu Dhabi, will be postponed until a later date. The political instability which concerns in different ways the countries of North Africa, the Middle East and the Gulf Area is a negative element for the realization of a professional trade show.

The UAE - explain the organizers – represent more than a market, but rather a strategic meeting place for traders of the large surrounding areas. Only after the return to more stable economic and political conditions it can be possible to restore the commercial dynamics that make the UAE an important point of reference for the Italian industry and the agricultural machinery field in particular.

Rome, 11 March 2011
