India: future Business is fertile

EIMA AGRIMACH INDIA 2009, the first International Exhibition of Agricultural Machinery, is the premier portal for access to the Indian market. EIMA AGRIMACH INDIA 2009 is the platform providing great visibility in bringing together public agencies, businesspeople, Indian farmers and delegations from the surrounding countries.

EIMA AGRIMACH INDIA 2009: the Indian agricultural market, an opportunity not to be missed.

**3-5 December, 2009,
IARI, Pusa, New Delhi, India**

Presentation EIMA GULF

EIMA Gulf 2009 – the International Exhibition of Agricultural and Gardening Machinery in the Arab World set for April 28 to 30 in Abu Dhabi – is the first review of this sector held in the United Arab Emirates and marks an important opportunity for manufacturers and businesspeople because of the location of the event in the heart of a region with strong trade ties and now displaying steep growth of the agricultural economy.

The rate of increase reported by the primary sector on the Arabian Peninsula and throughout the Middle East is highly significant and buoyed by policy aimed at boosting water resources and the introduction of modern agronomic techniques. The sector, however, is also coping with a machinery inventory which is still insufficient. Thus the spread of mechanization becomes a key factor for the development of quality in the agriculture of such a vast and important area.

On exhibit in the EIMA Gulf pavilions are tractors, machinery for harvesting crops, equipment for processing, seeding and fertilizing the soil, machines for plant treatment and irrigation. Also the sections of machinery for horticulture and machinery and equipment for gardening and the care of green areas are highly qualified.

There are about one hundred manufacturing industries taking part in the event with an extremely vast range of models for meeting all the needs of farming enterprises operating on any scale. The international nature of the review is underscored by the arrival of the world's major manufacturers as well as by the make-up of visitors and the businesspeople expected from, aside from the United Arab Emirates, Saudi Arabia, Iran, Yemen, Oman, Qatar, Syria as well as from North African countries led by Egypt.

EIMA Gulf arose out of the experience and skills of UNACOMA/UNACOMA Service srl – which, since 1969, has created and organized trade fair events dedicated to agricultural and gardening machinery and equipment in Italy and abroad, including EIMA International and ExpoGreen in Bologna – and the Fiere nel Golfo, a company specialized in the organization of trade fairs and promotions which has a branch operation in Abu Dhabi itself, with ADNEC, the Abu Dhabi National Exhibition Centre, the most modern exhibition centre in the entire Middle East with covered pavilions and a congress center with futuristic design features, avant-garde services and excellent express highway and airport links bringing in a million visitors annually. The event is held under the aegis of the United Arab Emirates Ministry of Environment and Water and draws support from ICE, the Italian Foreign Trade Institute.

Presentation ICE

The Italian Institute for Foreign Trade (I.C.E.), established in 1926, is the governmental agency entrusted with the promotion and development of trade and industrial co-operation between Italy and the rest of the world, thereby encouraging the internationalization of Italian companies, in particular Small and Medium sized Enterprises (SMEs), and their taking root in foreign markets.

The Head Office is located in Rome, and has 16 regional offices in Italy and more than 100 offices in the world; the U.A.E. office is the one in charge of promotional activities in the other Emirates, Qatar and Oman too.

I.C.E. assumes the role of institutional guide to market approach strategies by responding to the numerous requirements of individual companies, both Italian and foreign.

Through participation in international exhibitions, trade missions, workshops and other initiatives from its annual Promotional Program, I.C.E. intensifies business opportunities and reinforces the image of “**Made in Italy**” brand around the world.

United Arab Emirates
Ministry of
Environment & Water

Presentation United Arab Emirates Ministry of Environment & Water

Ministry's Vision:

Conserving environment and the natural resources for sustainable development.

Ministry's Message:

We altogether work to keep environment clean and safe for living and work of the existing and future generations through integrated management of balanced - ecosystems and sustainability of water resources and animal , fish and agricultural wealth in cooperation with partners and within the international accepted criteria .

Ministry's Values:

1. Participation and cooperation.
2. Transparency and credibility.
3. Initiation and pioneering.
4. Quality and excellence.
5. Forestalling recognition of customers' requirements.

Ministry's Goals:

1. Protecting and developing ecosystems.
2. Developing and sustaining water resources.
3. Developing and sustaining animal , fish and agricultural wealth.
4. Developing human resources and upgrading their capabilities.
5. Achieving ranks of excellence and pioneering in applying the international criteria and the best practices as well.

Ministry's Aims:

1. Enhance the environmental security within the programs of the Federal Environment Agency in order to limit the averages of soil, air and water pollution as well as controlling desertification & biological diversity.
2. Adapt the concept of the integrated management to rationalize consuming of the under ground water due to over using side by side with the development of alternative resources in coordination with the relevant parties.
3. Increase the average of the biological security to ensure the safety of the country against the biological risks resulting from epidemics and diseases that may affect animals and birds especially the zoonotic diseases.
4. Raise and stabilize the environmental awareness and elaborate and deepening the research and studies to ensure realizing the best standards of sustainable development for the natural wealth.
5. Develop the sources of the living aquatic resources and regulate fishing activities.
6. Achieve food security in the country through adapting the principles of the balanced economical performance in the demanded and the necessary plant and animal products for local consumption.
7. Develop and fulfill the legal, the administrative and the technical structure of the ministry including the systems of inspection and control.
8. Rehabilitate, empower and motivate the human resources in the ministry in accordance with the latest practices and standards.
9. Promote and upgrade the levels of services provided to customers to attain the onstitutional distinguish.

Specialising in solutions.

Merlo is synonymous with innovation and practicality. More than 70 models of handlers, either Turbotarmer or Multifarmer, provide the perfect synergy of technology, reliability and safety. Good enough reasons for choosing a Merlo.

Building with confidence.

India: future Business is fertile

EIMA AGRIMACH INDIA 2009, the first International Exhibition of Agricultural Machinery, is the premier portal for access to the Indian market. EIMA AGRIMACH INDIA 2009 is the platform providing great visibility in bringing together public agencies, businesspeople, Indian farmers and delegations from the surrounding countries.

EIMA AGRIMACH INDIA 2009: the Indian agricultural market, an opportunity not to be missed.

**3-5 December, 2009,
IARI, Pusa, New Delhi, India**

Organized by:

Ministry of Agriculture
Government of India

For information and forms for taking part: WWW.EIMAAGRIMACH.IN
